- **NEW Winter Tire Discount!**  
You may be eligible for a discount on your auto insurance premium if your vehicle\* is equipped with four winter tires. To qualify, you must install and maintain four winter tires on your vehicle from November through April. The tires must have the snow tire designation ()<sub>S</sub>), meaning they meet strict performance specifications and have been designed specifically for use in severe snow conditions.

**Your protection is our priority.** Having seasonally appropriate tires installed on your vehicle is a must have for safe driving. [And for all passenger vehicles in Quebec, winter tires are mandatory from December 15th to March 15th inclusively.](#) If you drive in winter conditions, winter tires are recommended as they provide improved traction on ice and snow, and in temperatures below 7°. They also reduce your stopping distance, compared to all-season tires.
